SHINE LINE
WE DELIVER OUR PROMISES

ABOUT US

Shine Line, based in Jubail, Saudi Arabia, is a renowned contracting business delivering a diverse range of services to meet the varied demands of industrial projects. With a steadfast commitment to excellence, we take pride in being

- **A Leader in Equipment Rental:** Providing top-of-the-line heavy machinery, including forklifts and cranes.
- **Comprehensive Services:** Offering transport services, generator and welding rentals, and customizable on-site portable cabins.

Additionally, our expertise extends to workforce supply and environmental services, managing sewage, skip bins, skip containers, water and diesel supply, and a robust contracting division overseeing civil construction, MEP (Mechanical, Electrical, Plumbing), and secure scaffolding solutions. Shine Line is your trusted and strategic partner for seamless project execution.

VISION

Shine Line aspires to lead the industry, synonymous with innovation and excellence, shaping the future of business through cutting-edge solutions and sustainable practices.

MISSION:

Our mission is to deliver unparalleled contracting solutions, including equipment rental, skilled manpower supply, and sustainable practices. With a focus on reliability and effectiveness, we consistently exceed client expectations, contributing to the sustainability and success of projects.

Why Choose Shine Line

Experience: Benefit from our industry-leading expertise and knowledge.

Trustworthiness: Count on us to provide prompt and reliable service.

Complete Solution: From equipment rental to contracting, we provide all-inclusive solutions.

Eco-Responsibility: Prioritizing sustainable methods throughout our offerings.

Safety Policy

Security is a top priority at Shine Line, where the well-being of our employees and the protection of the environment are primary goals. Our commitment extends to efficient communication and implementation of all safety rules, proactive accident prevention measures, and regular safety awareness sessions, fostering a culture of vigilance and accountability.

Quality Policy

Shine Line upholds a quality policy based on achieving complete customer satisfaction. Committed to continuous improvement, we implement quality standards and focus on employee development through well-structured training programs, ensuring the highest product quality and system effectiveness.

CONSUMABLE MATERIAL

Raw materials are the essence of any creation. Our carefully sourced metals and alloys are available in a variety of polymers, as well. Each material has been hand-picked for its durability, flexibility, and compliance with the highest standards.

1. Basics of Building

- Concrete (Ready-Mix, Blocks)
- Steel (Rebar and structural sections)
- Wood (Plywood Lumber and Formwork)

2. Assembly Basics

- Masonry (Bricks and mortar)
- Fasteners (Nails, Screws, Bolts)
- Adhesives & Sealants

3. Coating & Covering:

- Roofing (Shingles Membrane and Nails)
- Paints & Coatings
- Insulation (Fiberglass Boards, Foam Boards, and Reflective Insulation).

4. Safety & Tool:

- Safety Equipment (Hard Hats and Gloves).
- Electrical & Plumbing (Wiring & Boxes; PVC Pipes & Fittings);
- PPE & Tools: Safety Boots, Vests and Power and Hand Tools

5. Supporting structures:

- Construction Fabrics (Geotextiles Tarps and Netting)
- Abrasive Materials
- Temporary Structures: (Scaffoldings, Temporary Fencings, Tarpaulins).

2. Industrial Tools

Equip your workers with the best tools for their jobs. Our industrial tools have been designed for durability and performance. Our tools are engineered to meet your specific industry's needs, whether you work in construction, manufacturing, or maintenance.

Equip your workers with the latest tools for a variety of applications.

- **Power Tools:** Drills and grinders
- **Hand tools:** wrenches, pliers and screwdrivers
- **Precision tools:** Micrometers, calipers, and measuring instruments

3. SAFETY MATERIAL

Safety is not negotiable. Our extensive range of safety products including protective gear and signage. We put the safety of your team first, ensuring that you can work in any environment.

Our comprehensive safety range will help you to prioritize safety.

- Personal protective equipment (PPE), which includes helmets, safety glasses, and gloves
- Signage: Hazard indicators, warning signs, emergency exit signs and signs
- Fall protection: Harnesses and lanyards

4. ELECTRICAL

Our top-notch electrical products will keep you connected. We have all the electrical components and wiring solutions to power your projects safely. We will keep your operation running smoothly.

Our top-quality electrical products will power your projects:

- Wiring accessories: cables, conduits, and other wiring solutions
- Components include switches, circuit breakers, and connectors
- Lighting: LED fixtures and bulbs for industrial lighting

5. FASTENERS

Details are the foundation of any structure. Our fasteners have been designed for strength and durability, so your constructions will last. You can choose from a variety of fasteners to meet your needs.

Our fasteners are reliable and durable.

- Hex bolts with nuts and washers
- Screws: wood screws, machine screws, and self-tapping screw
- Anchors include expansion anchors (concrete anchors), wedge anchors, and concrete anchors.

6. HVAC

Our HVAC solutions will help you maintain optimal conditions. We offer a range of cutting-edge HVAC systems to ensure comfort and efficiency for any industrial setting.

Our advanced HVAC solutions will help you maintain optimal conditions.

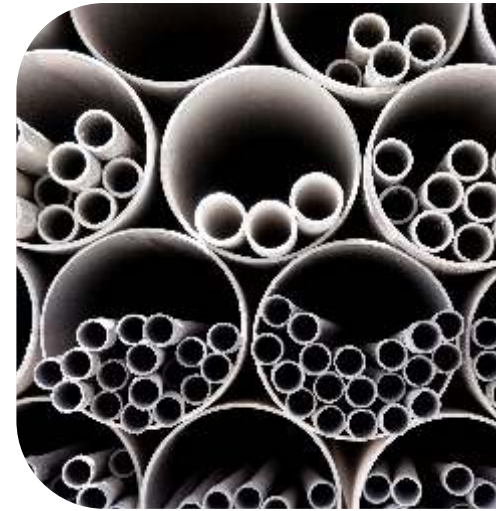

- **Heating** : Heat exchangers and radiant heaters.
- **Ventilation** : fans, blowers, and ventilation systems
- Commercial AC units and ductless air conditioning systems

7. PIPE & TUBES

The backbone of fluid transport. Our high-quality tubes and pipes are built to endure the harshest conditions. We offer seamless and welded solutions to ensure smooth operations.

Our high-quality tubes and pipes will ensure smooth, fluid transport.

- Seamless tubes : carbon steel, stainless steel, and alloy steel
- Welded Pipes: ERW LSAW and SSAW pipes
- Tubes: round, square and rectangular tubing

8. Fittings

Precision in every connection. Discover our wide range of fittings designed to integrate seamlessly into your system. Our fittings, whether for fluid, electrical, or gas connections, are designed to be reliable and long-lasting.

Our comprehensive range of fittings will help you achieve precision in all your connections:

- Pipe fittings - Elbows, tees and reducers
- Tube fittings: Ferrules and couplings, compression fittings
- Electrical fittings: Connectors, adaptors and conduit fittings

Portable Cabins

Transforming Spaces with Our Portable Cabins – Your Next Level of Comfort and Mobility

Shine Line provides customizable and ready-made portable cabins, offering flexible on-site accommodations for a range of applications.

We are experts in the disassembly and reassembly of portable cabins. This ensures a smooth and efficient process. We are experts at optimizing functionality and aesthetics in portable cabin structures, whether dismantling to relocate or refurbishing.

- Customization Options
- Quality and Durability
- Timely Delivery and Setup
- Amenities and Comfort
